All-Star Line Up**

300 STUDENTS – 18 MONTHS – 5TH GRADE

LIFE AT YORKSHIRE

When children begin their journey of learning at Yorkshire Academy, a magnificent seedling is planted that vigorously grows for a lifetime. This is because we instill in our students a strong belief that learning is beautifully and inextricably linked to life itself. We do this by being progressive in building children's knowledge, and just as strong in building their character. Our little school makes learning exhilarating and inspiring, so that when our students move forward they will carry a love for knowledge, a spirit of close community, and a joy for life with them forever.

Global Village – More than 50 nationalities are represented on our campus. Our students are the best ambassadors.

300

Small is Beautiful – We limit our student body to 300. To us, it's the perfect size for progressive learning, friendships and fun.

35 and Counting – We have taught a lot and learned a lot over our three and a half decades, and we are energized about our future.

LIFE AND LEARNING

Yorkshire Academy has strong core programs in math, science, technology, language and humanities, modeled upon the latest, most innovative educational research and development.

We also believe that living a full life includes art, culture, sport and creativity. We immerse our students in all facets of learning, so they can discover their passions and begin their journey to becoming well-rounded individuals who are strong problem solvers and enlightened contributors to the world we live in.

LIFE IN A COMMUNITY

Kids from across Houston and all over the world spend the most formative years of life right here at Yorkshire Academy. We believe it is our responsibility to inspire students to grow into productive members of our global civilization by creating a small but worldly community right here. Ours is an atmosphere of collaboration, kindness, respect, integrity and grit. Our students make mistakes and learn how to overcome them together. We help prepare them for a life of positive action, leadership, accomplishment and wonder.

Community Service Project

LIFE TO ITS FULLEST

The most advanced educational research reveals that true learning comes from joyful discovery and play. We infuse this spirit into every lesson, activity, and even the design of our facilities. Every corner of our campus is alive with movement, exploration and kids just being kids.

In addition to core academics, our enrichment programs include painting, music, theatre, Spanish, PE and more. Plus our after-school programs offer chess, robotics, dance, soccer and much more. We open a world of possibilities to every student, so they can be their best selves, in school and in life.
